

CENTER OF EXCELLENCE: Missouri is a center for automotive manufacturing excellence, supported by a cost-competitive, pro-business and innovative environment.

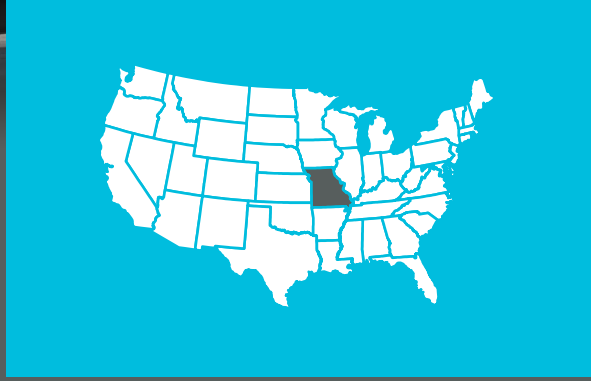

HIGHLY SKILLED: Missouri is home to highly skilled talent that delivers significant production for Ford and GM and more than 130 automotive manufacturers and suppliers across the state.

STRATEGICALLY LOCATED: Missouri is a strategic choice for companies as we are located in the center of North America and on the North American Automotive Alley that stretches from Toronto to Mexico City.

CONNECTED TO EVERYWHERE: Missouri exports \$7+ billion in mobility products annually, via our extensive logistics network including every Class 1 railroad and direct rail access to Mexico's largest seaport.

INVESTING IN THE FUTURE: Since 2010, more than \$4.5 billion has been invested in Missouri's automotive facilities.

MADE IN MISSOURI: Missouri's major automotive facilities—Ford in Claycomo and GM in Wentzville—produce the Ford Transit, Ford F Series, and every Chevrolet Colorado, Chevrolet Express, GMC Canyon and GMC Savana.
